

Request for Input From NASA SMD

2 Questions:

1. “Does the NASA SMD Research & Analysis program have processes in place to effectively solicit, review and select **high-risk/high-impact research?**”
2. “Does the NASA SMD Research & Analysis program have processes in place to most effectively solicit, review and select focused, interdisciplinary and interdivisional projects? ”

If you care, keep a look out for notice of a telecon on this topic in September.
